

Hitachi Transport System Europe (HTSE) is a Japanese international logistics service provider (3PL) that considers a suitable logistics solution together with its customers. Partly due to innovative solutions and customization, HTSE offers an extensive range of services with worldwide coverage from its European offices. Various companies now use our services, which we provide with quality and a personal service.

As a company, we are in full development and our warehouse business is expanding rapidly. That is why we are urgently looking for candidates who are excited to work as

Warehouse Assistant (full-time/part-time)

to join our team in Waardenburg and/or Hedel.

Holiday workers are also very welcome!

The function:

As a Warehouse Assistant you perform all common logistics activities in a team:

- Loading and unloading
- Check and extract
- Picking orders (manually and/or with a reach truck; possibly voice-controlled)
- Packing and preparing for shipment
- Storing in the Warehouse (manually and/or with a reach truck)
- We are looking for candidates with reach truck experience / certificate for the Hedel location

Sometimes you process order data in the WMS and you help to perform periodic stock counts.

Your profile:

You like to be deployable all-round and you are a real 'go-getter'. You have a positive personality, you are collegial, accurate, reliable and you can handle some work pressure well. You are able to perform physical labor and are willing to work overtime at times. Applying for a certificate of good conduct (VOG) is part of the procedure.

You speak Dutch and/or English.

We offer:

- Overtime during the week: 150%
- On Saturday and Sunday you even get paid double (200%)
- The ability to book overtime as time-for-time
- 31 vacation days
- Travel allowance
- Pension plan
- We work with various schedules (2 shifts: 08:30-17:00 and 10:30-19:00)
- Attention to develop yourself
- Salary: depending on age and experience
